

BRIC REALTY DATABASE ISSUES

- The agent login link on the bottom of the page does not work when you are in the "property search" and "rent" pages
- As a admin, we were suppose to be able to create new properties under "Marketing toolbox" box this still is not the case
- When we add clients to the database and then try to view them, the format looks terrible as per the below image.

The screenshot shows the 'CLIENT LIST' page. At the top right, there is a phone icon with the number 1-800-975-1485 and social media icons for Facebook, Google+, LinkedIn, and Twitter. Below this is a navigation bar with links: My Profile, Marketing Toolbox, Add Client, My Documents, My Training, and Reset Password. The 'Agent Name : Manny' is displayed. There is an 'Export' button and a file upload section with 'Choose File' and 'no file selected' text, and an 'UPLOAD' button. The main table has columns: FIRST NAME, LAST NAME, SPOUSE, ADDRESS, CITY, STATE, ZIP, COUNTRY, PHONE, EMAIL, DATE, and ACTION. The table contains two rows of data, but the columns are not aligned properly, with some data appearing in the wrong columns. At the bottom left is the BRIC REALTY logo and contact information. At the bottom right is a 'News & Updates' section.

	FIRST NAME	LAST NAME	SPOUSE	ADDRESS	CITY	STATE	ZIP	COUNTRY	PHONE	EMAIL	DATE	ACTION
<input type="checkbox"/>												
<input type="checkbox"/>												

- The columns are not aligned properly under the my agents page as per the bottom image. As you can see, the name is in the checkbox column etc...

- As admin when I tried to upload a video nothing happened. (I tried to upload a video called "short sale vs foreclosure" in case you can see in on your backend). The web browser showed the upload taking place but once complete it did not show it anywhere.

- When I tried to upload a document under “my documents” nothing happened. I got an error message stating that the file extension was not supported. Also, when uploading as a manager, the document should show-up under every agent/user login. Is this the case?

- Agents should be able to upload their own private documents and these documents would only show-up under their login.
-

- You guys are missing the “search field” under the “client list” and “agent list”. This is needed to be able to find a contact without having to search through each one individually.
